With the fresh milk of the Pyrenees

With the fresh milk of the Pyrenees

Lácteos Goshua is a family business located in the heart of Navarre, in the green and lush valleys of the lower Pyrenees (Ulzama Valley), where livestock and milk production are the traditional ways of life.

Goshua emerged in 1960 from that tradition, creating its flagship product: sheep's milk curd in a terracotta jar, a product that is the result of the harmony between the Basque-Navarre culinary tradition and its environment. All products are made with the freshest milk from the Pyrenees, no preservatives, no artificial colouring, and with the finest ingredients, to faithfully recreate the original recipes.

The authenticity inspires us

Goshua achieves such harmony which becomes a unique flavour experience in desserts and yoghurts. In the last ten years, Goshua has managed to grow incorporating the most innovative processes and developing the recipes in accordance with the highest standards of quality.

Desserts in terracotta

The terracotta jar is a sign of authenticity and fidelity to traditional dessert recipes, and it's our best ambassador in every home. The curd of sheep's milk in the clay jar It is an icon created by Goshua. The rice pudding and the custard, together with the Belgian chocolate cream make up a family of premium desserts in a generous format, which maintains like no other the flavor, texture and freshness.
